Report of Board of Health.

To the Hon. Board of Selectmen:

It is a source of gratification to your local Board of Health to report that another year has past without any prevailing epidemic to contend with. There has been reported but two cases of a contagious nature, and those of typhoid fever and one of these was traceable to the sanitary conditions of the home. There has been but few complaints and those have received our prompt attention. We realize that there exists in in our village things of long standing which it seems hard to eradicate, and these are more of an annoyance perhaps than they are detrimental to the public health; but with a new regulated water supply from Sunapee Lake, which we believe would prove a paying investment for the Town, nearly all of our village drainage would find its way into Sugar river, and this closed for domestic purposes, would make our village and town one of attraction for health seeking people, and would be a never ending blessing to all who enjoy a pure stream of running water in the home, both in case of fire and for its physical good.

ALBERT D. FELCH,
C. A. KNOWLTON, } Board of Health.
